## Anti-Slip Additive

### Product

Anti-Slip additive is manufactured from especially designed polymers which have an extremely high tensile and flexural strength. Smooth sealed concrete surfaces may become slippery when wet. This makes the conditions less safe for pedestrians and vehicles. This unique Anti-Slip additive consists of fine texture to improve safety conditions under wet or dry conditions.

### Usage

For the use in Bescon acrylic and water based concrete sealers and coatings. Helpful for Smooth finish concrete surfaces, steep & sloping driveways, pool surrounds, loading bays, stairs and access ramps are just a few to mention.

### Benefits

- ▶ Resistant to UV light and alkaline stains
- ▶ Almost invisible in most clear and coloured concrete sealers
- ▶ Improves safety conditions of steep and sloping surfaces
- ▶ Provides excellent slip resistance under both wet and dry conditions
- ▶ Increases the friction coefficient of the surface reducing slip potential
- ▶ Assists with pedestrian safety

### Application

Add 300 / 600 grams Anti-slip additive per 20lts of StaSeal® Concrete sealer to the final coat. Stir the sealer slowly, while adding the Anti-Slip additive into the sealer. Also stir thoroughly to ensure no lumps and a uniform distribution, stir frequently for an even coverage. A white powder may appear on the surface, this will almost become invisible within minutes.

### Precautions

Increasing the quantity in the top coat will increase the surface friction however the white powder may become visible if too much is added. It is advisable that you test individual conditions in these circumstances before using.

### Coverage

Approximately 300 to 600gms per 20lts of Concrete sealer

### Package

300gm sachet

### Shelf life

Approximately 4/5 years, providing stored correctly and unopened

### Storage

Store in well protected dry area and out of direct sunlight

### Handling

Avoid contact with skin and eyes, wear gloves and eye protection

### Properties

Appearance: Fine white granules  
Odour: Typical Wax Odour
