## Release Agent Liquid

Slate mat releaser

### Product

This Release Agent liquid is a blend of clear liquid. Designed to be sprayed over the surface of the concrete prior to placing the Slate Impression Mats. This will enable the imprint of the mats and eliminate the possibility of the concrete adhering to the mats.

### Usage

For the application of Slate Impression paving

### Benefits

- ▶ Ease of application
- ▶ Dust free
- ▶ No washing

### Application

After Statop® Coloured surface hardener has been applied and trowelled in the traditional manner and the concrete is ready for stamping. Using a spray unit, firstly apply an even coat of liquid Release Agent on the mats.

Then apply a light coat on the job working approximately 6 sq mtrs at a time. DO NOT allow the Release agent to pool.

Place mats then use a tamper for an even imprint. If a mistake occurs while stamping, the concrete can be re-trowelled and the Liquid release agent re-applied and stamping can be continued.

No washing is necessary prior to sealing. Apply StaSeal® Premium concrete sealer as per application guidelines, to enhance the colour and protect the surface.
